🎓 Software Development, FPT Polytechnic College, Hanoi

Frontend Developer

Summary

A dedicated Frontend Developer with over 1 year of hands-on experience in professional software development environments. Proficient in ReactJS, JavaScript, and modern web technologies with a strong foundation in data structures and algorithms. Experienced in delivering real-world projects and implementing Automation (RPA) solutions within major corporations. Currently advancing skills in Fullstack Development (Node.js/Java) to build scalable and high-performance web applications.

Technical Skills

Frontend ReactJS, Next.js (Basic), Tailwind CSS, Bootstrap, Redux Toolkit, HTML5/CSS3.

Backend Knowledge of Node.js, Java, PHP. Familiar with MVC architecture and RESTful API design.

Automation Experienced with akaBot (RPA) platform for business process automation.

Databases MySQL, SQL Server, MongoDB (Basic).

Tools Git/GitHub, Postman, Docker (Basic), Figma to Code.

Languages Professional English (Reading technical documentation), Basic Communication.

Professional Experience

10/2025 - 02/2025 **Frontend Developer**, CodeFarm, Hanoi, Vietnam

- Developed and maintained various outsourcing projects using `ReactJS` and modern UI libraries.
- Successfully converted Figma designs into responsive, pixel-perfect, and high-quality source code.
- Collaborated with the Backend team to integrate RESTful APIs and handle complex data flows.
- Optimized application performance, significantly reducing rendering time and improving User Experience (UX).

05/2025 - 08/2025 **Automation Intern**, Synnex FPT, Hanoi, Vietnam

- Completed an intensive internship focused on Robotic Process Automation (RPA) using the akabot platform.
- Analyzed manual business workflows and designed automated scripts to enhance operational efficiency.
- Applied programming logic to handle complex automation tasks within a corporate environment.

Key Projects

2025 **Verta Sport - E commerce Platform**, Team Leader, Academic Project

- **Tech Stack:** ReactJS, Bootstrap, RESTful API, MySQL.
- **Key Contributions:**
 - Architected the Client-Server communication flow and database schema.
 - Developed core business logic for Shopping Cart, Secure Checkout, and Admin Dashboard.
 - Managed the project repository and coordinated tasks for a team of 4 members.
- **Github:** github.com/VertaSport

Extracurricular Activities & Interests

Volunteering Member of VTour Club - Providing free English city tours and support for international tourists.

Interests Badminton, exploring AI trends, Cloud Computing, and Open Source projects.
